FIRST GRADE

Jump Start into 1st Grade 2022

We are excited that your child will be joining us at school this fall and want to give them a **jump start!**

To help your child, we have created a summer read aloud calendar and some simple activities that will support your child as they enter school in the fall. We have included five books for each week, Monday - Friday. Feel free to watch the books in any order and re-watch favorites as often as your child likes.

There are three ways to access the stories:

1. Click on the title of the book. (electronic calendar)
2. Click on the cover of the book. (electronic calendar)
3. Scan the QR code with your phone or tablet. (electronic or paper calendar)

How to scan a QR code:

1. Open the Camera app from the Home screen, Control Center, or Lock screen.
2. Select the rear facing camera. Hold your device so that the QR code appears in the viewfinder in the Camera app.
3. Tap the notification to open the link associated with the QR code.

Activities

- Get a library card
- Have your child tell you what they think this book might be about based on the cover
- Ask your child what their favorite part of the story was and why
- Ask your child what happened at the beginning, middle and end of the story
- Have your child draw what happened at the beginning, middle and end of the story
- Have your child retell the story to someone including the beginning, middle and end
- Have your child tell you 3 things they learned from the book
- Play hopscotch and count aloud while your child is jumping (numbers 11-20)
- Take a walk around the neighborhood and look for different shapes
- Jump rope and count
- Find 20 of the same objects and count them
- Roll 2 dice and clap, hop, or jump the number of times that match the dice. As your child becomes more skilled, use 3 dice and help your child add the numbers together and clap, hop, or jump the total. By changing the action your child uses to show you the number, the longer they will stay engaged
- On a piece of paper, draw different shapes (triangle, circle, square, rectangle) and have them practice cutting the shapes out

Enjoy this time with your child as they learn and grow!!

June Jump Start Into 1st Grade

Monday	Tuesday	Wednesday	Thursday	Friday
